Getting Started

After logging in, you'll land on either the Business Feed or the Directory, depending on where you last were.

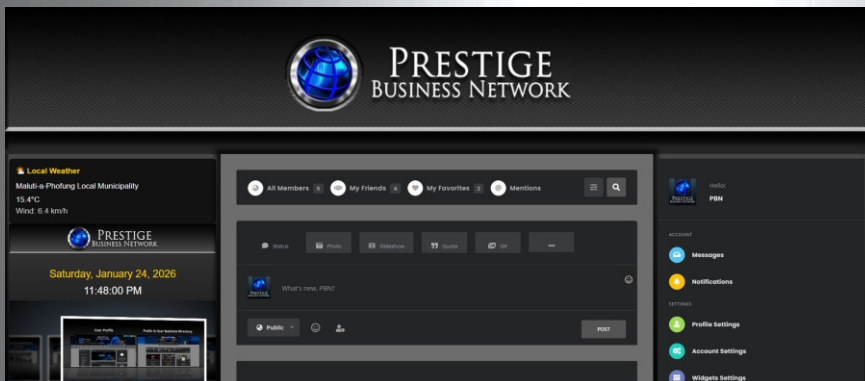

The top navigation menu includes Home, Directory, Business Feed, My Profile, and Help.

Business Feed

The Business Feed is the main activity area where members share updates and interact.

You can post Status updates, Photos, Slideshows, Quotes, or GIFs.

To post: click the post box, choose a content type, set visibility, and click Post.
Use feed filters such as All Members, My Friends, My Favorites, and Mentions to focus your view.

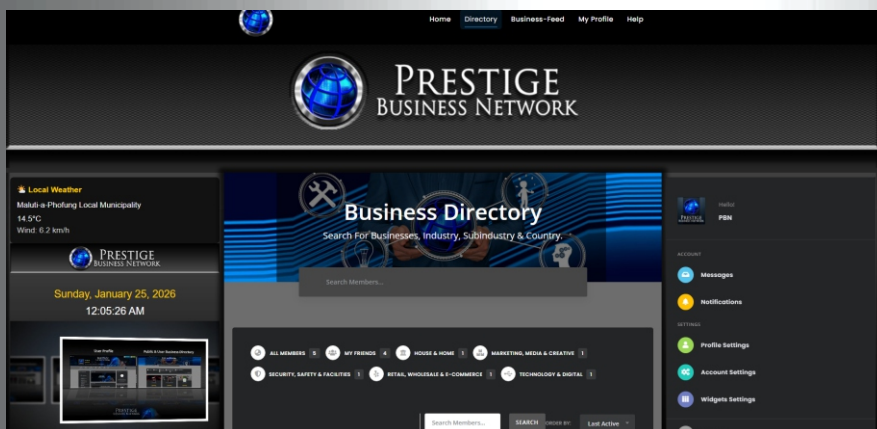

Business Directory

The Business Directory is a searchable listing of all businesses on the platform.

Search by industry, sub-industry, country, or activity level.

Each listing links directly to a full business profile.

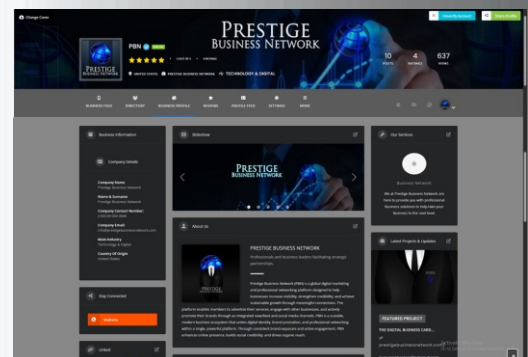

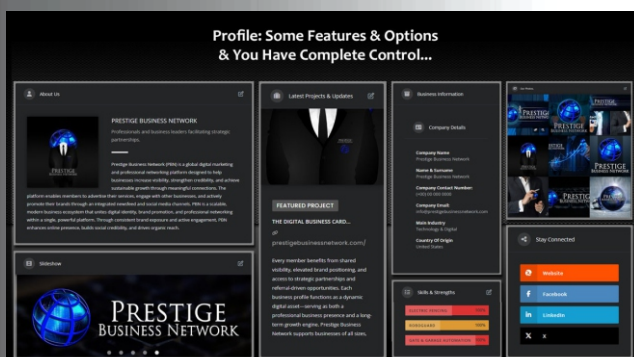

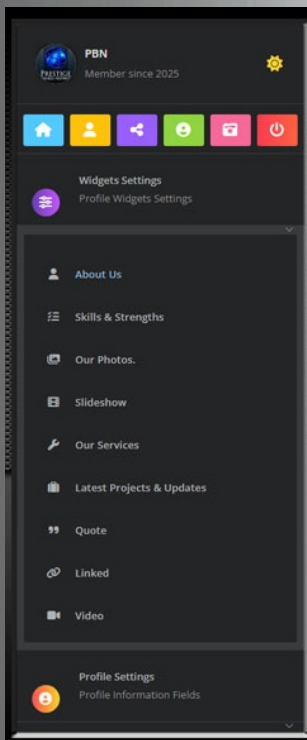

Your User Profile

Your profile is your public-facing business page.

It includes branding, business details, services, media, and activity indicators.

Edit your profile via My Profile → Profile Settings.

Profile vs Directory

The Directory is used for discovery and browsing.

Your Profile is your storefront where full business details live.

Think of the Directory as the marketplace and your Profile as your shop.
